AI Campus to Host Open Day in Sandton Showcasing Practical AI Solutions for South Africa's Future

Sandton, South Africa – AI Campus, the innovation hub transforming how institutions and communities use artificial intelligence, will host its second Open Day on Monday, 5 May 2025, at its headquarters in Sandton. The event will spotlight real-world applications of AI in education, compliance, legal services, workforce development, governance, and rural innovation – aligned with South Africa's national priorities.

From private schools and municipalities to legal NGOs and corporates, attendees will experience how AI Campus' platforms are designed to solve real problems, deliver measurable outcomes, and empower changemakers.

Explore the AI Campus Platform Ecosystem

Attendees will interact directly with developers and product leads in a breakout demo format, seeing how AI is being used to drive impact across sectors:

- **Orcaa.ai** – Real-time learning visibility and 24/7 AI tutoring to support learners, training centres, and workforce upskilling.
- **Proba** – Visualises and measures social impact, operational efficiency, and decision intelligence across departments and programmes.
- **EngageNet** – Omnichannel engagement and community coordination for municipal service delivery, school networks, and NGOs.
- **ComplyOn** – Risk and compliance management made simple for HR, supplier, and service environments, with automated policy tracking.
- **X-Verdict** – AI-powered legal case management for law firms, government agencies, and advocacy groups; streamlining LPC and POPIA compliance.

Building AI for Purpose and Progress

“Each of our platforms is built to solve a local problem, with measurable impact. Whether it's empowering a school principal, supporting municipal service delivery, or helping a legal aid worker manage cases more efficiently, AI Campus is where innovation meets social good,” said Kamogelo Nawe, Head of Marketing.

The platforms support sectors like:

- Education & Skills Development
- Public Sector ICT
- LegalTech & Governance
- NGO Impact Tracking
- Rural Development & Community Engagement
